Professional Summary

AI & Full Stack Developer specialized in building modern web applications using React.js, Next.js, Vue.js, Node.js, Express.js, MongoDB, JavaScript, Python, and AI-powered technologies. Experienced in building responsive web applications, AI-powered chatbots, educational technology platforms, and custom digital solutions using JavaScript, Node.js, MongoDB, Python, and modern development tools. Strong background in problem-solving, system design, and translating business requirements into practical technology solutions. Committed to delivering high-quality, scalable, and user-focused products that drive innovation and efficiency.

Technical Skills

- **Frontend Development:** HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, Vue.js, Tailwind CSS, Responsive Web Design, Cross-Browser Compatibility
- **Backend Development:** Node.js, Express.js, REST API Development, Authentication & Authorization, Server-Side Development
- **Database Management:** MongoDB, SQL, Database Design, CRUD Operations
- **Artificial Intelligence & Automation:** AI Integration, Prompt Engineering, AI Chatbot Development, Generative AI Tools, AI Content Creation, Workflow Automation
- **Programming Languages:** JavaScript, Python
- **Tools & Platforms:** Git, GitHub, VS Code, Postman, npm, Vercel, Netlify, Figma, Canva
- **Core Competencies:** Full Stack Development, Problem Solving, Debugging & Testing, Technical Training, Educational Technology, Project Development, System Design Fundamentals

Professional Experience

- **IT Teacher & Trainer**

Alpine Digital School | March 2026 – Present

- ◆ Delivering training in Computer Fundamentals, Programming, Digital Skills, and Emerging Technologies.
- ◆ Conducting hands-on workshops and practical sessions to enhance students' technical skills.
- ◆ Designing course materials, presentations, assessments, and learning activities.
- ◆ Guiding students in technology projects, problem-solving exercises, and digital literacy development.
- ◆ Promoting innovative learning through AI tools, productivity software, and creative technology platforms.

- **Course Instructor & Web Developer**

Dabang Tech | May 2025 – February 2026

- ◆ Developed web applications and AI-powered solutions while delivering technical training.
- ◆ Developed 10+ responsive websites with 95% mobile compatibility and digital solutions using modern web technologies.
- ◆ Designed project-based learning roadmaps, assessments, and practical assignments.
- ◆ Mentored 100+ students in building real-world projects including websites, AI applications, and automation solutions.
- ◆ Created educational content and technology training programs for learners of different skill levels.

- **IT Teacher**

Ahmed Public School | Dec 2024 – Sep 2025

- ◆ Taught Computer Science and Information Technology subjects to school students.
- ◆ Developed engaging classroom activities to improve digital literacy and logical thinking skills.
- ◆ Introduced students to programming concepts, office applications, and internet technologies.
- ◆ Prepared lesson plans, assignments, assessments, and project-based learning activities.
- ◆ Supported students in developing practical computer skills and confidence in using technology.

Projects & Achievements

- **Technova – E-Commerce Website**

- ◆ Designed and developed a modern e-commerce platform with responsive design, product catalog, category filtering, shopping cart, and checkout functionality.
- ◆ Implemented interactive UI components and optimized user experience across desktop and mobile devices.
- ◆ Technologies: HTML5, CSS3, JavaScript(ES6+), Tailwind CSS, Local Storage, Responsive Design, Git & GitHub.

- **Solutions – Business Website**

- ◆ Developed a professional business website focused on showcasing services, company information, and customer engagement.
- ◆ Created a modern, responsive interface with clean navigation and conversion-focused design.
- ◆ Technologies: HTML5, CSS3, JavaScript, Tailwind CSS, Responsive Design, Git & GitHub.

- **Modern Landing Page**

- ◆ Designed and developed high-converting landing pages with responsive layouts, call-to-action sections, and modern UI/UX principles.
- ◆ Focused on performance, accessibility, and mobile-first design.
- ◆ Technologies: React.js, JavaScript, CSS3, Responsive UI/UX Design.

- **Alpine MediScan AI – Health Report Generator**

- ◆ Developed an AI-powered healthcare project designed to generate and organize medical reports efficiently.
- ◆ Focused on improving report management, accessibility, and healthcare workflow support.
- ◆ Technologies: Next.js, Node.js, Express.js, Gemini API, AI Integration, Prompt Engineering.

- **FizNPine AI – Intelligent Chatbot Assistant**

- ◆ Built an AI-powered chatbot using Gemini API and Node.js to provide conversational assistance and intelligent responses.
- ◆ Implemented modern chat interface, AI integration, and real-time communication features.
- ◆ Technologies: Node.js, Express.js, Javascript, Gemini API, MongoDB, REST APIs, AI Integration, Prompt Engineering.

- **Book Portfolio (Ongoing)**

- ◆ Designing and developing a unique interactive portfolio website inspired by a digital book experience.
- ◆ Features chapter-based navigation, storytelling elements, and creative presentation of projects and skills.
- ◆ Technologies: Vue.js, JavaScript, CSS3, Animation Libraries, Responsive Design.

- **SmartConnect AI (Ongoing)**

- ◆ Developing an AI-powered business support and customer communication system.
- ◆ Designed to automate customer interactions, manage inquiries, improve response times, and enhance customer engagement.
- ◆ Technologies: Next.js, Node.js, Express.js, MongoDB, Gemini API, REST APIs, AI Integration, Automation Workflows.

Education

- **Bachelor of Science in Software Engineering (BSSE)**

Virtual University of Pakistan | 2025 – 2029

Currently pursuing a degree focused on Software Development, Database Systems, Software Design, and Modern Computing Technologies.

- **Bachelor of Science in Computer Science (BSCS)**

Islamia University of Bahawalpur | 2022 – 2026

Studied Computer Science fundamentals including Programming, Data Structures, Database Systems, Web Development, and Software Engineering.
